Ms. Ceja, Computer Science Instructor
302 West Weber Avenue
Stockton, CA 95203

Dear Ms. Ceja:

Introduction I am writing because I will be attending your academy in the following years. My name is Adrian Sigala Chavez . My goals when entering the Technology Academy class is to further my education in game design, and computer languages. I am Looking forward to your class.

BODY In your class I would like to further my education in game design . In the future, I aspire to be a game developer as I have many ideas in paper that I want to put into practice. I know game development is not a stable or guaranteed career, so I would also like to learn a variety of computer languages. Some coding languages I would love to practice are Java Script, C#, or C++. These Languages can help in both game development and getting a stable career in the technological field . In my short time in the Technology Academy, I have learned basic practices in the coding field, even If it was scratch and coding blocks. I plan to put my best effort in your class and the rest of the classes I will have next year. I Hope I will make a good Impression to those who read this letter. I give my word, that I will put in the best effort I can in your class next year.

CONCLUSION Thank you for taking the time out of your day to read this letter. I am looking forward to seeing you in class next year. I hope your Impression of me is a good one. I will really appreciate the knowledge you will have for me next year. Next Year will be a Joyful one.
Sincerely,

Adrian Sigala Chavez
