Mr. Steers
Information Technology Support Technician
5151 Pacific Ave
Stockton, CA 95207

Dear Mr. Steers

I am writing to apply for the IT internship position at San Joaquin Delta College, which I discovered through an engaging school presentation. I was captivated by the opportunities to grow my technical skills and contribute to a dynamic IT environment. With my passion for expanding my knowledge of technology to give back to my community and relevant certifications in HTML and JavaScript, I believe I can bring valuable insights and support to your team. I am eager for the opportunity to contribute my skills and experience to this position.

In my personal academic journey, I have pursued courses both in and outside of school in web development and general technology repair, and completed projects that demonstrate my technical proficiency. One project that aligns with the needs of this internship involved the repair of a computer that refused to connect to Bluetooth or the internet. This experience sharpened my ability to troubleshoot and think critically, skills I am confident will support San Joaquin Delta College's IT team.

I am particularly drawn to this opportunity because of San Joaquin Delta College's dedication to technological innovation and community growth. I would not have heard of this opportunity if it were not for your willingness to reach out to students and give us the chance to use our skills in the workforce. I am excited about the prospect of joining a team that fosters both academic and professional development while utilizing technology. My passion for IT and desire to support such initiatives make me motivated to contribute to your goals.

I am enthusiastic about the possibility of interning at San Joaquin Delta College and bringing my unique skills to your IT department. I look forward to discussing my qualifications in further detail and would appreciate the opportunity for an interview at your convenience. Thank you for your time and consideration.

Sincerely,
Adrian Sigala Chavez
